/ WORK EXPERIENCE

>> Portofolio
https://lucasmmaidana.netlify.app
> ToDo List
This was my first project with MERN STACK, here i can save tasks and subtask.
> Pokedex
Building with Next.js as a framwork, this was my first porject whit this framework.
> NETFLIX and DISNEY+ UI clone
Here i clone the ui of this sites with React.js and i use Firebase for the auth.
> Sneakers Commerce
I build a small commerce wiht the cart functionallity, payment methood with stripe.
> BURGER API REST
Api rest developed with Expreess and Mongo DB as a database.
> SNEAKERS API REST
Api rest builded with Nest.js(my first api with that framework)
> TODO LIST API REST
Api rest developed with Expreess and Mongo DB as a database, this api was builded for the ToDo list project.
> MercadoLibre Challenge
I clone the UI using Chakra ui,in this project i can learn more about TypeScript.

>> Team Leader for production
Burguer King | 2017 to Current
As a team leader I have to training the team, some of my task are the holding cash, annual budget, and during the period from AGO 2018 to FEB 2020 I was in charge of the Marketing team (Increase the sales of this business unit by 43% identifying where we were failing and initiating an action plan this placing it among the 10 best stores in the region for 7 consecutive months and within the best 20 the rest of the time)
